

RESILIENCE **NW** 2012

The Premiere Citizen Preparedness Conference in the Northwest

October 30 & 31 **MEDICAL PROFESSIONALS TWO WORKSHOPS**

Attend two great workshops! October 30th, Learn about operating mass medical dispensing sites in a public health emergency. October 31st, the Basic Disaster Life Support workshop covers natural and accidental human caused events, incident management systems and special needs populations.

October 30 - 8 AM to 12 NOON **MASS ANTIBIOTIC DISPENSING**

- ☑ Identify Strategic National Stockpile foundational concepts and alternate methods critical to dispensing.
- ☑ Differentiate between the elements that enhance and those that slow down POD throughput.
- ☑ Classify core dispensing roles and responsibilities.
- ☑ Analyze POD staffing plans and identify resources.
- ☑ Define tasks critical to POD demobilization.

Presenter: Cristin Corcoran

October 31 - 8 AM to 5 PM **BASIC DISASTER LIFE SUPPORT**

- ☑ Review of natural and human made hazards, including radiological, biological and chemical events.
- ☑ A health care professional's role in the incident management system.
- ☑ Community mental health and the special needs of under-served and vulnerable populations.
- ☑ The recognition and management of the disaster scene and victims.

Course credits: 7.5 AMA PRA Category 1.
Open to all professions, however, the content is prepared for healthcare professionals.

Presenter: Alan Dobrowolski

Sign up today for the medical workshop for \$20 at www.ResilienceNW.org and attend the Friday and Saturday sessions for free!
